# MIG/MAG WELDING WIRE

## → PRODUCT SPECIFICATION

AWS A5.18 ER 70S-6 & DIN 8559 - SG2

## → USE AND APPLICATION

A general-purpose mild steel welding wire suitable for MIG (GMAW) application, including multipass.

Higher manganese and silicone content assists in de-oxidising base materials.

Higher silicone content provides better wetting, flatter bead shapes & lower Spatter than other grades of wires.

DC EP - DC current, electrode positive polarity.

## → WIRE SIZES & PACKAGING

Wire Dia :	0.80 mm	0.90 mm	1.00 mm	1.20 mm	1.60 mm
Package :	Spool				
Weight :	15.0 Kg				

Other package can be as per order.
